

A/C Cleaner

Product description

A/C Cleaner is a high quality cleaning foam for the air conditioning units. A/C Cleaner has a pleasant, subtle mint scent, it prevents malfunction and optimizes the functioning of the air conditioning unit. A/C Cleaner is especially developed for the air conditioning units in motorised vehicles and indoor house units.

Properties

- Optimizes the functioning of the air-conditioning.
- Prevents malfunction.

Applications

- Cleaning of airco units (inhouse and automotive)
- Removal of unpleasant smells spread by HVAC units

Technical data

Consistency	White foam
Density	ca. 0.95 g/ml
Viscosity	ca. 1 mPa.s
Acidity level	8
Application temperature	+5°C → +35°C
Solubility in water	Fully soluble

Application method

- Application method

A/C Cleaner should be at room temperature. Best processing temperature 5 to 30°C. Before use, shake the aerosol. Before treatment, switch off the engine and the electrical installations. Apply the foam to the condenser of the air conditioning by means of the enclosed adapter. Insert the adapter about 30 centimeters into the air inlet of the air conditioning and completely empty the can. The location of the air inlet differs per brand, consult your dealer. After applying, do not switch on the engine or the electrical installations for at least half an hour. In this half hour the foam will break and leave the system through the condensed water outlet as a fluid. Turn the air conditioning off and start the engine. Set the fan and temperature to their maximum positions and wait 10 minutes with opened doors. Turn the engine off again and install a new cabin air filter.

Health- and Safety Recommendations

Take the usual labour hygiene into account. Consult the packaging label and safety data sheet for more information.

Use only in well-ventilated areas.

In case of contact with eyes, wash immediately with plenty of water.

Dangerous. Respect the precautions for use.

Packaging/Logistics

Colour: Please consult the product catalogue, the Soudal website or a Soudal representative.

Packaging: Please consult the product catalogue, the Soudal website or a Soudal representative.

Shelf life: 3 years in unopened packaging in a cool and dry storage place at temperatures between +5°C and +25°C

A/C Cleaner

This technical data sheet replaces all previous versions. The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. It is general in nature and does not constitute any liability. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. Since the design, the quality of the substrate and processing conditions are beyond our control, no liability under this publication is accepted. It is the responsibility of the user to determine by his own tests whether the product is suitable for the application. In every case it is recommended to carry out preliminary experiments. The manufacturer reserves the right to modify products without prior notice.
